Pediatrics Residency Program

Congratulations to the Kennedy Krieger Institute (KKI) for recently receiving accreditation for a Pediatric Residency Program. The Department of Physical Therapy and Rehabilitation Science is enthusiastic to be a collaborative partner with KKI for this program. Kennedy Krieger Institute's Pediatric Residency Program is accredited by the American Physical Therapy Association as a postprofessional residency program for physical therapists in pediatrics. The pediatric residency program at KKI is designed to offer physical therapists the opportunity to obtain post graduate pediatric clinical specialty training in a supportive and structured environment that promotes growth and contributes to evidence based practice of physical therapy. The residency includes intense learning, leadership, broad clinical exposure and prepares residents to sit for the Pediatric Specialty Certification (PCS) at its conclusion.

Campus Event

The SOM Student Council will be helping to host a blood drive on:

Wednesday, February 17th
12:30PM-6:00PM
MSTF Atrium

They are looking to get 12 donors and 2 double red donors per hour (Double red cell donation is similar to a whole blood donation, except a special machine is used to allow you to safely donate two units of red blood cells during one donation while returning your plasma and platelets to you.) To sign-up to donate blood, click [HERE](#), and enter "UMMED" as the sponsor code.

In addition, we are looking for volunteers to help this event run smoothly. Three volunteers are needed per hour to help with things like registration and refreshments. Please [sign up here to volunteer](#).

As an added incentive, everyone that donates or volunteers will be able to enter a raffle for \$25 gift cards to Chiptole, Panera, Nando's and Starbucks.

Please consider either donating or volunteering - you can really help make a difference. For additional information, contact the Student Council at umb.som.council@gmail.com
