Workshop 2-6PM

Where: Allied Health Building: 100 Penn Street, Baltimore, MD 21201

Course Description:

In 2014, with the support of APTA, the Education Section, and FSBPT, the American Council of Academic Physical Therapy held a Clinical Education Summit where stakeholders shaped a shared vision of a "common culture of teaching and learning based in strong partnerships with shared responsibility..." This innovative program is designed to foster collaborative networks that will provide educational mentorship opportunities for novice and experienced clinical educators. Participants will receive an overview of best practices in mentorship in clinical and educational arenas, discuss various strategies for the provision and receipt of feedback among all clinical education stakeholders, and explore the paralleled opportunities for mentorship for the clinical educator. The program will be offered in a multi-modal format including presentations, interactive simulations, and opportunities for informal networking.
