GRANT AWARD

Congratulations to **Leslie Glickman**, PT, PhD, Assistant Professor for receiving an IPE Center Faculty Award for her proposal entitled "An interprofessional (IPE) collaborative sustainability activity with the Kachere Rehabilitation Centre, Malawi and the University of Maryland, Baltimore". Dr. Glickman will receive a one-time/non-recurring allocation of \$2,000. The initiative is to support health professions students' acquisition of knowledge and skills to better provide interprofessional health care.

Department Visit

Evan Papa, DPT, PhD, Assistant Professor in the Department of Physical Therapy at the University of North Texas Health Science Center in Fort Worth, TX visited the PTRS Department last week. Dr. Papa received an APTA Section on Research Traveling Fellowship Award which supported his travel. During his visit, Dr. Papa met with faculty and staff members to receive training in the areas of LIFT, Transcranial Magnetic Stimulation (TMS), Active Step I, and he also visited the VA Hospital's exercise facility. Dr. Papa also presented the Rehabilitation Science Research Seminar last week entitled, "Effects of acute muscle fatigue on postural control: Investigations across the lifespan."

Rehabilitation Science Research Seminar

This week the Rehabilitation Science Research Seminar will feature a presentation by Brian Johnson of the Physical Rehabilitation Science PhD program. The title of his talk will be:

"Sleep on it: The influence of sleep on rehabilitation throughout the lifespan."

Please plan to join us on **Friday, March 6th**, 9:00AM-10:00AM in Room 511 of the Allied Health Bldg (PTRS) for this interesting talk and discussion.

IPE Day 2015

Several PTRS students and faculty participated in Interprofessional Day on Thursday Feb. 26th. This afternoon was designed to provide individuals with the opportunity to share and use the knowledge of their own professional role and those of other professions to appropriately assess and address a healthcare, human service or legal need relevant to an individual patient or population served. The afternoon started with introductions by President Perman and Dean Kirschling. Next a videotape of the President's Clinic was shown that featured Dr. Victoria Marchese and DPT student Dan as part of the interprofessional team. This was followed by breakout sessions composed of a dozen smaller multiprofessional groups that each worked together on a case that included interaction with a standardized patient. Many thanks to those who participated and helped to make this a great afternoon!

PTRS Fact Sheet

Check out the latest PTRS Fact sheet which features many of our current students from the Classes of 2015, 2016, and 2017 by visiting

<http://pt.umaryland.edu/default.asp>

and downloading it! Hard copies can be found in Suite 115 or in Alex Ganzermiller's office. Please use the current Fact Sheet when sharing with external stakeholders and prospective students as this reflect the most current statistics about our program.

UM Rehabilitation Network Conference

Saturday, March 7, 2015

7:30 am - 3:15 pm

University of Maryland, Baltimore
Southern Management Corporation Campus Center
621 W. Lombard Street
Baltimore, MD 21201

Health care is evolving at a fast pace due to multiple factors, including the Affordable Care Act, patient-driven outcomes and the increasing cost of health care, to name just a few. We, as an industry, will no longer be incentivized to increase volume, but to improve the value of the care we provide to our patients. This conference looks at the nexus between volume and value. We will examine new clinical trends and technology that will improve patient outcomes. In addition, we will have an interchange with national therapy organizations on the future of therapy. The conference targets all physical, occupation, speech and recreational therapists involved in the delivery of care. In addition, other health care professionals, such as physicians, nurses and mid-level providers who are involved in rehabilitation, will benefit from this conference. Applications for continuing education hours have been submitted to the Maryland Board of Physical Therapy Examiners, the Maryland Board of Occupational Therapy and the Maryland Board of Audiologists, Hearing Aid

Dispensers & Speech-Language Pathologists. This activity has been submitted to Shore Regional Health for approval to award contact hours. Shore Regional Health is an approved provider of continuing nursing education by the Maryland Nurses Association, an accredited approver by the American Nurses Credentialing Center's Commission on Accreditation.

Cost:

\$50: Student Rate

\$50: Members of the University of Maryland Rehabilitation network

\$100: Non-members

(Parking is included in the registration fee. Attendees must park in the Pratt Street Garage.)
