Conferences

**THE GEORGE
WASHINGTON
UNIVERSITY**

WASHINGTON, DC

**"Preparing the Next Generation of Physical Therapists for
Innovative Practice"**

Dr. E. Anne Reicherter and **Dr. Linda Horn** attended the "Preparing The Next Generation Of Physical Therapists For Innovative Practice" at George Washington University on July 25-26, 2014. The message in all of the presentations centered on the need to change how PT students are educated to meet the changing demands of health care. Presentations included examples of innovative care in different settings, unique partnerships between academic institutions and clinical settings, collaboration replacing independent practice, and examples of innovative teaching in PT programs. The conference provided an opportunity for the presenters to network with educators from across the US and participate in rich discussions about future models of health care and PT education.
